

WL-FA3000-2A Smart Laminator

This machine is suitable in office personalized card making and card factory's sample testing based on the advantages of light weight, favourable price and easy operation, etc

Model	WL-FA3000-2A Laminator
Controlling Method	Smart Digital Control
Cooling Method	Water Cycling Cooling
Temperature Control Range	0-180 (°C)
Pressure Method	Hydraulic(2 stages pressure)
Laminating Size	210×297mm
Laminating Layers	2-30
Working Pressure	0-7Mpa
Power Supply	220VAC 50-60HZ
Power	5.3KW
Dimension	700(L)×520(M)×1220(H)mm
G.W	350KGS
Productivity	800 cards/hour

WL-HS-2F Hydraulic Dual-Card Punching Machine

This machine is suitable for individualization card making, photoelectric eye center location for accurate positioning and mold easy-replaceable.

Model	WL-HS-2F
Card Size	ISO standard size (85.7×54mm)
Sheet Size	210 × 297 mm
Punching Thickness	0.3-1.2mm
Punching Position Method	Infrared
Feeding	Manual
Power Supply	220V AC 50HZ-60HZ
Power	2.2KW
Dimension	850 (L) × 410 (M) × 1150 (H) mm
G.W.	275KGS
Productivity	3000 cards / Hour
